

STAT 8010 Statistical Methods I

Homework 1

Instructor: Whitney Huang (wkhuang@clemsun.edu)

Due Date: May 26, 11:59pm via Canvas

Problem 1

Find a data set that is of interest to you (**please specify the data source**).

- (a) Is this study *experimental* or *observational*?

- (b) Identify the variables and the associated variable types.

- (c) Summarize each variable graphically

- (d) Summarize each variable numerically

- (e) State the research question(s) you would like to investigate using this data set.
